

Housekeeping

We want you to enjoy our place as much as we do – and one of the most important things is to be able to stay in a clean and safe environment. We are blessed with cleaners who take very good care of our unit and make it sparkle for our guests.

We are also lucky to have great guests who respect our place and treat it as they treat their own home and that's greatly appreciated.

Airbnb and VRBO can have endless cleaning requirements. You're on vacation to relax, not to clean. Just please be mindful of messes or spills – especially anything food related.

Accidents happen!! Please, please, please let us know if something breaks during your stay or is in disrepair when you arrive. It is very important to us is that everyone is safe and able to take advantage of all the amenities in our unit.

And lastly...

Our cleaners do ask for a few items to be taken care of upon departure (Please and Thank you!):

- Place all dirty dishes in the dishwasher, add detergent, and run
- Take all trash out to the dumpster—do not leave in unit or in the common hallways
- All sheets, pillowcases, and bath towels are to be placed in the bathtub
- Pillows, pillow covers, mattress pads, and comforters are to be left on the beds. Do not mix these in with the dirty sheets or wet towels please
- Blankets should be folded and returned to where you found them
- Close all windows, sliding doors, and blinds
- Empty the fridge, freezer, and cupboards of your food, drinks, etc.

Please refer to your contract for any further details
